## LorAnn Super-Strength Flavors

LorAnn's Super-Strength flavors can be used in a wide variety of applications. They should be used sparingly as they are generally 34 times stronger than typical flavor extracts. Questions of solubility are common and we hope this list, along with the addtional information regarding solubility found on page 2 is helpful.

| Item \# | Flavor Name | Safe for Chocolates | Water Soluble | Item \# | Flavor Name | Safe for Chocolates | Water <br> Soluble |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 0535 | Almond (Bitter Almond) | $\checkmark$ | No | 0460 | Cotton Candy |  | Yes |
| 0380 | Amaretto | $\checkmark$ | No | 0870 | Cranberry |  | Yes |
| 0700 | Amaretto, Nutty | $\checkmark$ | No | 0040 | Cran-Raspberry |  | Yes |
| 0100 | Anise Oil, Natural | $\checkmark$ | No | 0890 | Cream Cheese Icing | $\checkmark$ | No |
| 0350 | Apple | $\checkmark$ | Yes | 0510 | Crème de Menthe, Nat. | $\checkmark$ | Yes |
| 0282 | Apple Pie, Natural | $\checkmark *$ | Yes | 0515 | Crème de Menthe, Nat. | $\checkmark$ | Yes |
| 0290 | Apricot | $\checkmark *$ | Yes | 0312 | Cucumber-Serrano | $\checkmark$ | Yes |
| 0250 | Banana Cream | $\checkmark$ | Yes | 0420 | Eggnog |  | Yes |
| 0255 | Banana Cream, NAC | $\checkmark *$ | Yes | 0430 | English Toffee |  | Yes |
| 0830 | Bavarian Cream (Vanilla) | $\checkmark$ | Yes | 2190 | Eucalyptus Oil, Nat. | $\checkmark$ | No |
| 02060 | Bergamot Oil, Natural | $\checkmark$ | No | 0292 | Fruit Punch, Natural | $\checkmark$ | Yes |
| 0880 | Black Cherry | $\checkmark$ | No | 0444 | Ginger Flavor | $\checkmark *$ | Yes |
| 0230 | Blackberry |  | Yes | 0540 | Ginger Oil, Natural | $\checkmark$ | No |
| 0300 | Black Licorice | $\checkmark *$ | Yes | 0180 | Grape | $\checkmark *$ | Yes |
| 0065 | Blood Orange, Nat. | $\checkmark$ | No | 0185 | Grape Flavor, NAC | $\checkmark$ | Yes |
| 0422 | Blue Raspberry | $\checkmark *$ | Yes | 0670 | Grapefruit Oil, Nat. | $\checkmark$ | No |
| 0480 | Blueberry, Natural |  | Yes | 0900 | Green Apple |  | Yes |
| 0485 | Blueberry, NAC |  | Yes | 0660 | Guava |  | Yes |
| 0252 | Bourbon |  | Yes | 0665 | Guava, No Added Color |  | Yes |
| 0560 | Brandy |  | Yes | 0708 | Hazelnut, Creamy | $\checkmark$ | No |
| 0360 | Bubble Gum |  | Yes | 0650 | Honey |  | Yes |
| 0365 | Bubble Gum, NAC |  | Yes | 0152 | Horchata | $\checkmark$ | Yes |
| 0140 | Butter |  | Yes | 6030 | Hot Chili, Natural | $\checkmark$ | No |
| 0190 | Butter Rum |  | Yes | 0710 | Irish Cream | $\checkmark$ | No |
| 0892 | Buttered Popcorn |  | Yes | 0154 | Jalapeño, Natural | $\checkmark$ | No |
| 0210 | Butterscotch |  | Yes | 0412 | Key Lime, Natural | $\checkmark$ | No |
| 0142 | Cake Batter |  | Yes | 2270 | Lavender Oil, Natural | $\checkmark$ | No |
| 0701 | Cappuccino | $\checkmark$ | No | 2480 | Lavender Oil, Organic | $\checkmark$ | No |
| 0600 | Caramel |  | Yes | 0840 | Lemonade | $\checkmark$ | Yes |
| 0372 | Chai Tea, Natural $\rightarrow$ |  | Yes | 0020 | Lemon Oil, Natural | $\checkmark$ | No |
| 0680 | Cheesecake | $\checkmark$ | No | 2280 | Lemongrass Oil, Nat. | $\checkmark$ | No |
| 0150 | Cherry | $\checkmark$ | Yes | 0110 | Lime Oil, Natural | $\checkmark$ | No |
| 0155 | Cherry, NAC | $\checkmark *$ | Yes | 0424 | Lychee | $\checkmark$ | Yes |
| 0702 | Cherry, Washington | $\checkmark$ | No | 0875 | Mango |  | Yes |
| 0170 | Chocolate |  | Yes | 0270 | Maple |  | Yes |
| 0175 | Chocolate, NAC |  | Yes | 0716 | Maple, Canadian | $\checkmark$ | No |
| 0820 | Chocolate Hazelnut |  | Yes | 0590 | Marshmallow |  | Yes |
| 0010 | Cinnamon Oil | $\checkmark *$ | No | 0620 | Melon |  | Yes |
| 0332 | Cinnamon, Hot, Natural | $\checkmark$ | No | 0860 | Menthol-Eucalyptus, Nat. | $\checkmark$ | No |
| 0212 | Cinnamon Roll | $\checkmark$ | Yes | 0850 | Mint Chocolate Chip | $\checkmark$ | Yes |
| 0232 | Citrus Blossom, Nat. | $\checkmark$ | No | 0520 | Nutmeg Oil, Natural | $\checkmark$ | No |
| 0080 | Clove Leaf Oil, Nat | $\checkmark$ | No | 0706 | Orange Brandy | $\checkmark$ | No |
| 0220 | Coconut | $\checkmark *$ | Yes | 0800 | Orange Cream | $\checkmark *$ | Yes |
| 0370 | Coffee, Natural | $\checkmark *$ | Yes | 0060 | Orange Oil, Nat. | $\checkmark$ | No |
| 0410 | Coffee, Keoke |  | Yes | 2350 | Origanum Oil, Nat. | $\checkmark$ | No |
| 0712 | Coffee, Kona | $\checkmark$ | No | 0450 | Peach |  | Yes |
| 0930 | Cola, Natural |  | Yes | 0455 | Peach, No Added Color |  | Yes |
| 0272 | Cookies \& Cream | $\checkmark *$ | Yes | 0262 | Peach Mango, Nat. |  | Yes |
| 0704 | Cool Crème de Menthe, N . | $\checkmark$ | No | 0580 | Peanut Butter |  | Yes |

| Item \# | Flavor Name | Safe for Chocolates | Water <br> Soluble |
| :---: | :---: | :---: | :---: |
| 0280 | Pear, Natural |  | Yes |
| 0640 | Pecan |  | Yes |
| 0070 | Peppermint Oil, Nat. | $\checkmark$ | No |
| 0400 | Piña Colada | $\checkmark *$ | Yes |
| 0240 | Pineapple | $\checkmark$ | Yes |
| 0630 | Pistachio | $\checkmark$ | Yes |
| 0330 | Plum |  | Yes |
| 0442 | Pomegranate | $\checkmark *$ | Yes |
| 0447 | Pomegranate, NAC | $\checkmark$ | Yes |
| 0810 | Pralines and Cream | $\checkmark *$ | Yes |
| 0570 | Pumpkin | $\checkmark$ | No |
| 0160 | Raspberry | $\checkmark$ | Yes |
| 0165 | Raspberry, NAC | $\checkmark$ | Yes |
| 0714 | Raspberry, Royal | $\checkmark$ | No |
| 0340 | Root Beer |  | Yes |
| 2420 | Rosemary Oil, Nat. | $\checkmark$ | No |
| 0440 | Salt Water Taffy |  | Yes |
| 0120 | Sassafras | $\checkmark *$ | Yes |
| 0550 | Sparkling Wine |  | Yes |
| 0090 | Spearmint Oil, Natural | $\checkmark$ | No |
| 0320 | Strawberry | $\checkmark$ | Yes |
| 0325 | Strawberry, NAC | $\checkmark$ | Yes |
| 0711 | Strawberry Banana | $\checkmark$ | No |
| 0322 | Strawberry Kiwi | $\checkmark$ | Yes |
| 0470 | Tangerine Oil, Nat. | $\checkmark$ | No |
| 0622 | Teaberry | $\checkmark$ | Yes |
| 2465 | Tea Tree Oil, Nat. | $\checkmark$ | No |
| 2470 | Thyme Oil, Natural | $\checkmark$ | No |
| 0500 | Tropical Punch | $\checkmark *$ | Yes |
| 0490 | Tutti-Frutti |  | Yes |
| 0495 | Tutti-Frutti, NAC |  | Yes |
| 0690 | Vanilla | $\checkmark *$ | No |
| 0310 | Vanilla Butternut |  | Yes |
| 0200 | Walnut |  | Yes |
| 0260 | Watermelon | $\checkmark *$ | Yes |
| 0265 | Watermelon, NAC | $\checkmark *$ | Yes |
| 0050 | Wintergreen Oil, Natural | $\checkmark$ | No |
| 0030 | Wintergreen Oil, Artificial | $\checkmark$ | Yes |

## KEY:

$\checkmark=$ works well in pure chocolates and coatings.
$\checkmark \neq$ works in coatings, but may cause thickening. Not recommended for use in pure chocolates.

Typical usage levels:
1lb Chocoate -use . 25 tsp - 5 tsp (.25\%-.5\%)
The addition of oil or cocoa butter to melted chocolate or coatings can help with thinning or smoothing chocolate that begins to thicken.

## Notes on Solubility of Flavors

Many flavors are built by combining both water-soluble and oil-soluble flavoring ingredients. LorAnn specification sheets indicate whether or not a flavor is soluble in water with a simple statement of "soluble in water" or "insoluble in water". Unfortunately, these two statements oversimplify the fact that flavors have different degrees of solubility and that they may in fact work well in a variety of applications. There are many factors that can affect the proper dispersion of flavor into the finished application. (On the above table, flavors that are "soluble in water" are marked with a "Yes" and those "insouble in water" are marked "No")

Those flavors marked "insoluble in water" work in flavoring chocolates or other applications where the presence of water or moisture can create issues. Pure essential oils are all insoluble in water. They also blend well into massage oils, balms and other personal care products. Flavors that are insoluble in water are not always ideal for flavoring meringue or royal icing as these can be affected by the addition of an oil.

Flavors identified as "soluble in water" will generally mix easily into beverages, dairy and other baking applications. These flavors are often created by combining oil soluble ingredients such as essential oils and other aroma constituents into water-soluble carriers that may include alcohol, propylene glycol, glycerin, or water. In most cases, flavors marked as soluble in water may not incorporate evenly in oitbased products and can cause chocolates to seize or thicken.

In practice, flavors have different levels of solubility and can be adaptable to a range of uses. For example, both water-soluble and insoluble flavors find applications in baking and the creation of hard candy and other confections. Interestingly, certain water-soluble flavors from LorAnn may work well in oil-based settings, although only in small amounts. This is illustrated by some of LorAnn's SuperStrength, water-soluble flavors, which can be used in coatings and chocolates without undesirable consequences, thanks to thier minimal usage threshold and compatible solvent systems.

Suggestion to increase the solubility of the flavor if you are having difficulty would be to:

- Decrease the level of flavor being used (too much can cause chocolates to seize)
- Increase your mixing time and/or level of mixing if possible
- Slightly increase the temperature of the application matrix when mixing in the flavor

These are suggested starting usage levels. Add more or less based on desired flavor intensity. Super-Strength Mint and Cinnamon flavors tend to be very strong, so you may want to use less. Whenever possible, start with the smallest amount and add to taste.
